Sustainability Report 2026

Environment. Energy consumption was 61,200 MWh, with 38% supplied by renewable electricity under power purchase agreements.

Water withdrawal was 410 megalitres. Water use is metered at every site and reported to the Sustainability Committee each quarter.

We generated 2,300 tonnes of waste and diverted 71% from landfill through recycling and a packaging return programme.

No significant environmental incidents, breaches or penalties were recorded in FY2026.

People and safety

Our total recordable injury frequency rate (TRIFR) was 3.1 and our lost time injury frequency rate (LTIFR) was 0.8. There were no fatalities.

Our safety management system is certified to ISO 45001. Psychosocial hazards are identified through an annual survey and managed under the same controls framework.

Employees completed an average of 22 training hours, and we invested $2.1 million in learning and development.

Women hold 38% of senior leadership roles. Our target is gender balance of 40:40:20 in senior leadership by 2028.

Our gender pay gap was 11.2%, as reported to the Workplace Gender Equality Agency.

Communities, customers and cyber security

Community investment totalled $1.4 million across 36 community partnership programmes.

Customer complaints are logged, acknowledged within two business days and reported to the board monthly, with product safety recalls managed by a dedicated team.

Cyber security. The Risk Committee oversees cyber security. Controls are aligned to the Essential Eight, and the incident response plan is tested annually.

No notifiable data breach occurred during the year.
